

Improving the lives of the unemployed through steel sponsorship to Qualitas Academy

By Joe Nowbath

Every year the ArcelorMittal Foundation in Newcastle sponsors steel to Qualitas Academy. This year the foundation continued its pledge to improve the lives of the unemployed by sponsoring almost 8 tons of steel to the academy.

This sponsorship will be used by Qualitas Academy to provide training to 40 unemployed black youth from the Newcastle area. This sponsorship will go a long way in developing skilled welders and boilermakers.

The ArcelorMittal Foundation is proud to play their part in job creation within the local community.
