

# **ARCELORMITTAL SA**

## **Deal reached with Sishen**

Sishen Iron Ore had agreed to sell 1.5 million tons of iron ore to ArcelorMittal South Africa until December 31, a decision that came after extensive talks between the two companies. ArcelorMittal SA added yesterday that the supply agreement would be done on the same terms and conditions as applied under the extended interim pricing agreement. Shareholders were advised that these negotiations and engagements would continue to take place with the assistance of an appointed mediator. ArcelorMittal SA shares fell 1.66 percent to close at R38.50. — Nompumelelo Magwaza
