

Red Feather in ArcelorMittal's cap

VANDERBIJLPARK. - Lusa Community Chest recently presented the ArcelorMittal Foundation with a Red Feather Special Recognition Award for its ongoing support and partnership in terms of community upliftment over the past eight years.

According to Retha Jacobs, Project Manager Lusa Community Chest, ArcelorMittal has been instrumental in a number of projects serving the Vaal Community of which the Winter Warm and Wish Upon a Star projects are probably the most well-known.

“Without ArcelorMittal's support we would not have been able to build the Katleho Children's Home for Disabled Children in Evaton, or renovated another home, called Montana, for mental-ill patients in Rosashof. We value their commitment to community development.”

Receiving the award on behalf of the ArcelorMittal Foundation, Maggie Mopedi, Manager Corporate Social Responsibility and External Relations at ArcelorMittal South Africa, said ArcelorMittal SA is proud of its involvement with Lusa Community Chest as the NGO has an extensive reach and is positioned to mobilise resources to improve lives and create positive, long term social solutions in the Vaal Triangle by identifying organisations that are needy and deserve support.

Retha Jacobs, Project Manager: Lusa Community Chest, and Maggie Mopedi, Manager: Corporate Social Responsibility and External Relations at ArcelorMittal South Africa, at the presentation ceremony.
