HEIDELBERG - During Sedibeng College, Heidelberg Campus official opening this year, the results of 2011 were celebrated. Hard work of students and staff resulted in Heidelberg Campus being awarded three trophies: Best Electrical (EIC) Campus, Best Mechanical (ERD) Campus as well as overall best performing Sedibeng Campus. Mr Ambrose Bomba received a laptop as recognition for his excellent electrical results, whilst Ms Marcelle Coetsee received recognition for leading the best performing campus.

Being accredited with MerSETA, MICT Seta, HW Seta and soon AGRI Seta sets the quality bar high, not only for skills, learnerships and apprenticeships, but also for all NC(V) and Nated students.

The goal of the college and specifically in Heidelberg is to deliver well rounded students to the labour market where they will have sustainable employment.

Therefore campus management is passionate about building partnerships with industry to understand their needs and desired quality standards. Much of the success is attributed to the involvement of companies such as BATSA, Arcelor Mittal and TSS Managed Services.

Companies interested in more information regarding internships and referrals of students are invited to phone Marcelle Coetsee from Sedibeng College, Heidelberg Campus on 016 349 1022.
