

Steelers crowned soccer league winners: ArcelorMittal Soccer Club (Steelers) were crowned the winners in the West Coast Industrial Soccer League for 2012. Steelers overcame stiff competition and tough challenges to make it to the top. This year they snatched the trophy from Sea Harvest by a narrow margin, based on goal difference. "Goals change the framework of any soccer competition. The number of goals scored, this time, counted in our favour," said a smiling Andrew Simons (head coach).
